## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The instant invention claims a collection of amorphous particles comprising non-rare earth metal/metalloid host and a rare earth metal dopant of specific diameters.

The closest prior art references that relate to the claimed invention are Inoue'832, Pinkerton'049 and Aiken'303. The closest prior art references teach that it is known in the art to make and use metal particles. However, the prior art does not teach or suggest the collection of amorphous particles having specifically claimed composition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to leszek b kiliman whose telephone number is 703-308-2373. The examiner can normally be reached on M-T, 6.30-5.00.
